The Ellen MacArthur Cancer Trust inspires young people aged 8-24 to believe in a brighter future living through and beyond cancer. Cancer can have a big impact on a young person's mental wellbeing beyond treatment.

When a young person gets the 'all clear' from cancer, there is an expectation of happiness and returning to 'normal'. But what is 'normal' now? Their whole world has changed. The future can feel daunting and overwhelming.

For many, simply picking up where they left off before their diagnosis just isn't possible. That's when our work begins. Any young person who has been treated for cancer from across the UK can join us for a free transformational four-day sailing experience from Cowes, on the Isle of Wight, or Largs on Scotland's West Coast.

Many young people need support over time too. So, once a young person has been sailing with us, they can keep coming back for more sailing or outdoor adventures.

We are all about community and creating unique restorative and restful FREE holidays for young adults (over 18 and diagnosed before the age of 30) living with and beyond a diagnosis of cancer. Our holidays are for anyone who lives in the UK or the Irish Republic.

Based in a farmhouse in Dawlish, we welcome groups of 12 guests of a similar age. The focus is on fun, connection and peer support - helping young people to rebuild confidence, make friends and enjoy time away with others who understand.

We believe that rest, good food, nature and animals support wellbeing. With this in mind we enjoy lazy brunches cooked by our fabulous chef Ian, walks with the resident dog and time amongst farm animals; donkeys, horses, alpacas and chickens. You even have the opportunity to milk a cow at the family run farm. The site is accessible and there are ground floor rooms available.

Our criteria:

- Have had a cancer or cancer like diagnosis aged over 18 and before the age of 30
- Be living in the UK or the Republic of Ireland
- Be able to travel independently or with the support of a companion
- Be able to administer your own medications
- Be able to manage your own personal care or have assistance for this from a companion who is familiar with your needs
  - If you are on active treatment or are being closely monitored by your hospital team you must discuss the suitability of a YCT holiday with them
  - If you have mobility needs and require the use of a wheelchair, you will need a companion to support you with this.
